WINTER MEAT EATING.

The Poor Stomach's Tale of Woe Just Now Mi-o-na is Needed.

At this season of the year thousands of people are already showing the ill symptoms that are sure to result from the usual winter diet. Indeed life, meat eating, hearty food, lack of exercise, overwork and poor ventilation spell "sickness" and poor health.

If the stomach cannot do its work properly, ill health is sure to follow. Mi-o-na is the one medicine that assures a natural digestion. It at strengthens the stomach, that soothes and heals all irritation, congestion and inflammation in the stomach or bowels. It is this that makes it a certain and guaranteed cure for all stomach troubles.

If the digestion is impaired the blood is impoverished and becomes filled with poisonous impurities, deranging the entire system and causing sickness and suffering. Mi-o-na, acting upon the stomach and digestive organs cures sleeplessness, nervous troubles, headaches, backaches and general weakness and debility.

If you are weak and ailing the chances are that it is due to a diseased stomach, but you can be cured by using Mi-o-na. Ask Penny, the reliable druggist, to show you the strong guarantee under which Mi-o-na is sold. Mi-o-na costs but 50c a box. If it does not help you, the price is absolutely nothing.

Cured His Mother of Rheumatism.

"My mother has been a sufferer for many years from rheumatism," says W. H. Howard, of Husband, Pennsylvania. "At times she was unable to move at all, while at all times walking was painful. I presented her with a bottle of Chamberlain's Pain Balm, and after a few applications she decided it was the most wonderful pain-reliever she had ever tried, in fact, she is never without it now, and is at all times able to walk. An occasional application of Pain Balm keeps away the pain that she was formerly troubled with." For sale by all Druggists.

Chamberlain's Cough Remedy The Best Made.

"In my opinion Chamberlain's Cough Remedy is the best made for colds," says Mrs. Cora Walker, of Porterville, Cal. There is no doubt about its being the best. No other will cure a cold so quickly. The fact is that few people are satisfied with any other after having once used this remedy. For sale by all Druggists.

MR. ELLERSON PADGETT.

One of Waynesburg's oldest and most highly respected citizens, died Jan. 17th. He was born near this place Feb. 15, 1820, his parents having moved to this county from Louisa county, Va., four years previous to his birth. With the exception of three years, from 1842 to 1845, spent in St. Louis, he had lived his long life in this vicinity. In 1849 he married the widow Leach, who was Miss Emily A. Goocn, and four children were born to them, only one of whom, Mr R. D. Padgett, of this place, survives, with whom the old gentleman had lived since the death of his wife in 1896. In politics he was a true democrat, never having scratched a ticket in all his long life. He was elected and served three years as constable and 12 years as magistrate, and during that time he married 66 couples and had the reputation of making one of the best magistrates this district ever had. During his early life he was a school teacher, afterward making farming his occupation, except a few years in the merchandise business at Waynesburg and Eubanks. He was never a member of any church, although in all his dealings and in his life he was always honorable and just and lived a life that would have been an honor to any church. He was loved and respected by all who knew him. He was laid to rest in Waynesburg cemetery by the side of his wife, whom he had married just 56 years before to a day, who had preceded him to the grave eight years. Funeral services by Rev W. R. Davidson. M. G. REYNOLDS.

THE INTERIOR JOURNAL

E. C. WALTON

WITH the indulgence of our readers, we will in our next issue give a few jottings on our very delightful trip to Atlanta, which we have made since our last paper was issued. The object of our trip was to be present at a reunion of our family, the first in 28 years. It was a most enjoyable occasion and one that we will look back on as an oasis in our rather busy life.

GOV. BECKHAM makes another convincing reply to Senator Blackburn, which further proves him equal to any emergency that may arise. Kentucky's model executive is as handy with the pen as a veteran newspaper man and when he dips into vitriol the pen goes to the bottom.

IT is predicted that by the year 2000 from 200 to 300 new foods will be at man's service, says a self-styled prophet. If this includes breakfast foods a half dozen or more ciphers should be added.

Gov. Pennybacker in his message to the Pennsylvania Legislature recommends that a law be passed for the suppression of newspapers that are objectionable, and he is being severely criticised for it by men of all political parties.

The rapid increase in the number of ignorant negroes in Indiana is responsible for the introduction at Indianapolis of a proposed constitutional amendment to require that all voters shall be registered and shall be able to read and write the English language.

Senator Smoot was put upon the witness stand in his own behalf in the Senate. He refuted the witnesses introduced against him in many important particulars; declared that he has never countenanced polygamy since it was made unlawful in Utah, and while he believes in it as a church tenet, he also believes in the strict observance of the law. He made a good impression on the stand.

Representative Gilbert called at the White House and presented Judge Ben Dishman, of Barbourville, to President Roosevelt. Mr Gilbert took occasion to tell the president that he was right in his efforts to have the tariff revised and to give the Interstate Commerce Commission power to adjust freight rates. "In fact, Mr. President," said Mr. Gilbert, "you are making a very good democratic president so far as these issues are concerned." The president laughed and said he was "delighted" to have the approval of members of Congress.—Washington dispatch.

Senator James B. McCreary will not return to Kentucky until after the present session of Congress adjourns. He is one of the busiest men in the Kentucky delegation and says there is nothing going on in the State to take him away from his duties there. He has never thought that there would be an extra session of Congress in the Spring and has contended from the start that the republicans would never consent to a revision of the tariff so soon after a presidential election. He says if by any chance the president should call a special session he believes it will be to consider railroad legislation and not the tariff. The Kentucky Senator's view is doubtless correct. The president has had all his Spring tariff revision ideas knocked into smithereens by the "stand patters" in both houses. However, he is urging the enactment of railroad rate legislation during this session and if he does not get it, it will not be at all surprising if he should take the bit in his own mouth and tell Congress it had to stay there until it came to his way of thinking.—Richmond Register.

The Kingsville Christian church has called Ed Hurd to preach one Sunday of each month. He is from Fulton, Mo., and is attending Lexington Bible College. He comes highly recommended by Ed. C. E. QUEER CLOCK.—Mr. John H Engle man has a clock at his home that is attracting a good deal of attention by its unaccountable freaks. THE building of an electric railway between this city and Burgin at an early date now seems a certainty says a Harrodsburg dispatch. The Columbia and Lebanon Interurban railway, of which W. K. AFFIRMED.—The court of appeals in an opinion by Judge Settle affirmed the Lincoln circuit court in the case of Hiram Denham vs. the Commonwealth. The appeal was taken, alleging that it was incompetent to introduce evidence showing the result of trailing by bloodhounds. Judging from the immense congregation which assembled at the Baptist Church last night to hear Dr. Hinitt, who is conducting the preparatory services that are to lead up to the union meetings, which will begin on Tuesday evening, these services will be of wide-spread interest. No. 75, 650,000 acres of cotton land in Mississippi. There is no section of country which offers so many opportunities for profitable investment as the Mississippi Delta which is now fully settled as "Prosperity Valley." The timber, is becoming more valuable all the time for the reason that lumber people from the North (where the supply of timber is fast diminishing, are constantly increasing their purchases of timber lands in the South. When the timber is removed the land is unequaled for agricultural purposes. It will produce a bale of cotton to the acre or will grow any other kind of crop raised in the temperate zone. The soil needs no fertilizers and gives a yield which cannot be excelled; taxes are low, the title is perfect and the man who buys Delta farm and timber lands at present prices is making an investment that he will never regret. This land is divided into tracts ranging from an acres to the tract to 12,000 acres to the tract and prices from $8 per acre to $60 per acre, according to location, etc. We are authorized by the company who owns these lands to state that as other parties are considering the purchase of these lands that we offer these tracts subject to prior sale, withdrawal from market or change in price without notice. However, when notified they will hold any tract out of market long enough for the purchaser to make an investigation. About 12,000 acres of this land has been sold by the Company since we received this option. For further particulars call at our office.
